

# LIUDMILA ORLOVA

DATA ANALYST ENTRY LEVEL

BERLIN

[lussie.orlova@gmail.com](mailto:lussie.orlova@gmail.com)

## OBJECTIVE

I'm looking for a position as a Data Analyst. I have great experience in IT and web development. I've worked as IT project manager for 10 years with a team of up to 15 persons.

I have a great desire to develop my skills in Data Analysis and Data Science. I enjoy searching and finding data, systematizing everything around me. I get excited looking for patterns. In the future I'd like to build and test various hypotheses.

## EXPERIENCE

### Data Science Student

August 2022 - Present

I am studying for the Statistics and Data Science MicroMasters program online at MIT. I accomplished the first part with excellent results (96%) and gained a scholarship award.

I have several small projects and experiments:

<https://github.com/Lussie/Games>

Solved problems on Rosalind: <https://rosalind.info/users/Lussie/>

### Senior Project Manager

ADV web-engineering

July 2014 - November 2020 (6 years 5 months)

Moscow, Russia

I was working as project manager in development of portals on the base of Microsoft Sharepoint with many customizations. I had a team of 12: backend and frontend developers, business analytics, Q&A. Three of them were in a remote team. In some cases I worked with outsource teams.

Main projects:

- Leroy Merlin (intranet, social network). Results: development of an API for mobile app, design, development and implementation of social network.
- Invitro (personal online cabinets for medical offices). Results: design and development of online cabinets from the beginning till the implementation, successful integration with data bus for exchanging data with different IT-modules.
- Megafon (unified knowledge base). Results: deep analytics of all processes of call-center, identification of needs and existing problems.

Other projects: Nizhfarm, GroupM, TSUM (maintenance, implementation of new modules).

Technologies used: C#, .NET, Redis, HTML5.

### Project Manager

SmartMedia

February 2013 - June 2014 (1 year 5 months)

Moscow, Russia

Full-cycle management of website development (promo-sites, corporate sites, web-portals, social networks): presale, design, markup, programming, testing, launching.
